About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – affect how equal a society is and the well-being of its people, including whether the most disadvantaged will have real opportunities for a better life. It is critical that governments inform and engage the public on these vital decisions that impact their lives.

The **Open Budget Survey (OBS)** is the world's only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions such as the legislature and auditor in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 7th edition of the OBS covers 117 countries.

Visit www.internationalbudget.org/open-budget-survey for more information, including the full OBS methodology, the 2019 Global Report, findings for all surveyed countries, and the Data Explorer.

What changed in OBS 2019?

Azerbaijan has increased the availability of budget information by:

- Publishing the Citizens Budget online in a timely manner.

Recommendations

Azerbaijan should prioritize the following actions to improve budget transparency:

- Produce and publish the Pre-Budget Statement and Mid-Year Review online in a timely manner.
- Include additional expenditure and fiscal risk information in the Executive's Budget Proposal.
- Include policy and fiscal risk information in the Year-End Report.
- Improve the comprehensiveness of the Citizens Budget (CB) by: identifying the public's budget information needs prior to the release of the CB, and publishing CBs for additional stages of the budget process.
- Improve the comprehensiveness of the In-Year Reports by: providing additional information on actual expenditures (both by classification and individual program), as well as including estimates on government borrowing and debt.

Extent of opportunities for public participation in the budget process

few: 0 - 40; limited: 41 - 60; adequate: 61 - 100

Recommendations

To further strengthen public participation in the budget process, Azerbaijan's Ministry of Finance should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Azerbaijan's Parliament (Milli Məclis) should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Azerbaijan's Chamber of Accounts has established mechanisms to assist the supreme audit institution in developing its audit program. It should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to contribute to relevant audit investigations.

Budget Oversight

The OBS also examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Azerbaijan, together, provide adequate oversight during the budget process, with a composite oversight score of **68** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Legislative oversight

Audit oversight

weak: 0 - 40; limited: 41 - 60; adequate: 61 - 100

Recommendations

Azerbaijan's Parliament (Milli Məclis) provides adequate oversight during the planning stage of the budget cycle and limited oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- Legislative committees should examine the Executive's Budget Proposal and publish reports with their analysis online.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.
- In practice, ensure the legislature is consulted before the executive shifts funds specified in the Enacted Budget between administrative units during the budget year.

- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Azerbaijan Chamber of Accounts, the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Azerbaijan does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

**These indicators are *not* scored in the Open Budget Survey.*

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2018 were assessed in the OBS 2019.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Dr. Ingilab Ahmadov
Eurasia Extractive Industries Knowledge Hub
Baku, Azerbaijan
ingilab.ahmadov@gmail.com
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Azerbaijan by a representative of the Ministry of Finance.
