About the survey

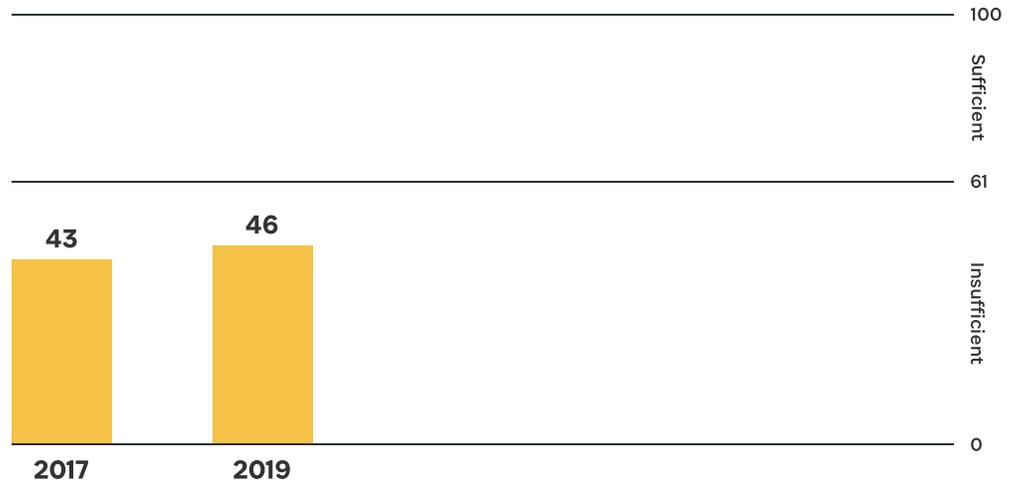

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – affect how equal a society is and the well-being of its people, including whether the most disadvantaged will have real opportunities for a better life. It is critical that governments inform and engage the public on these vital decisions that impact their lives.

The Open Budget Survey (OBS) is the world's only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions such as the legislature and auditor in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 7th edition of the OBS covers 117 countries.

Visit www.internationalbudget.org/open-budget-survey for more information, including the full OBS methodology, the 2019 Global Report, findings for all surveyed countries, and the Data Explorer.

Enacted Budget	The budget that has been approved by the legislature.	2018	89
Citizens Budget	A simpler and less technical version of the government's Executive's Budget Proposal or the Enacted Budget, designed to convey key information to the public.	2019	Not Produced
In-Year Reports	Include information on actual revenues collected, actual expenditures made, and debt incurred at different intervals; issued quarterly or monthly.	2018	85
Mid-Year Review	A comprehensive update on the implementation of the budget as of the middle of the fiscal year; includes a review of economic assumptions and an updated forecast of budget outcomes.	2018	Not Produced
Year-End Report	Describes the situation of the government's accounts at the end of the fiscal year and, ideally, an evaluation of the progress made toward achieving the budget's policy goals.	2017	46
Audit Report	Issued by the supreme audit institution, this document examines the soundness and completeness of the government's year-end accounts.	2016	24

Paraguay's transparency score of **46** in the OBS 2019 is near its score in 2017.

What changed in OBS 2019?

Paraguay has increased the availability of budget information by:

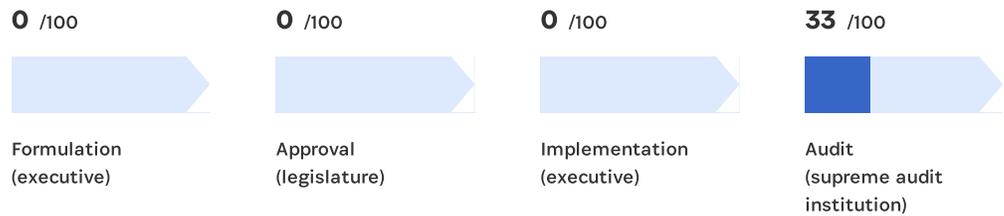

- Increasing the information provided in the Enacted Budget and In-Year Reports.

Recommendations

Paraguay should prioritize the following actions to improve budget transparency:

- Produce and publish the Pre-Budget Statement, Citizens Budget, and Mid-Year Review online in a timely manner.
- Include in the Executive's Budget Proposal fiscal risk and performance information.
- Include in the Year-End Report debt, performance, and macroeconomic information.
- Improve the comprehensiveness of the Audit Report and include therein an Executive Summary.

Extent of opportunities for public participation in the budget process

few: 0 - 40; limited: 41 - 60; adequate: 61 - 100

Recommendations

To further strengthen public participation in the budget process, Paraguay's Ministerio de Hacienda should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Paraguay's Congreso Nacional should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Paraguay's Contraloría General de la República has established mechanisms for the public to assist in developing its audit program. It should prioritize the following actions to further improve public participation in the budget process:

- Establish formal mechanisms for the public to contribute to relevant audit investigations.

Budget Oversight

The OBS also examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Paraguay, together, provide limited oversight during the budget process, with a composite oversight score of **50** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Legislative oversight

Audit oversight

weak: 0 - 40; limited: 41 - 60; adequate: 61 - 100

Recommendations

Paraguay's Congreso Nacional provides limited oversight during the planning stage of the budget cycle and weak oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.
- Legislative committees should examine the Executive's Budget Proposal and publish reports with their analysis online.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.

- In practice, ensure the legislature is consulted before the executive shifts funds specified in the Enacted Budget between administrative units or reduces spending due to revenue shortfalls during the budget year.
- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Paraguay Contraloría General de la República, the following actions are recommended:

- Ensure the supreme audit institution has adequate funding to perform its duties, as determined by an independent body (e.g., the legislature or judiciary).
- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Paraguay does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

**These indicators are *not* scored in the Open Budget Survey.*

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2018 were assessed in the OBS 2019.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Fernando Ovando; Verónica Serafini
Centro de Análisis y Difusión de la Economía Paraguaya (CADEP)
Piribebuy N° 1058 entre Colón y Hernandarias, Asunción
fovando@cadep.org.py; cadep@cadep.org.py
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Paraguay by a representative of the Ministerio de Hacienda.
