About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – affect how equal a society is and the well-being of its people, including whether the most disadvantaged will have real opportunities for a better life. It is critical that governments inform and engage the public on these vital decisions that impact their lives.

The **Open Budget Survey (OBS)** is the world's only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions such as the legislature and auditor in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 7th edition of the OBS covers 117 countries.

Recommendations

Slovenia should prioritize the following actions to improve budget transparency:

- Publish the Pre-Budget Statement online in a timely manner.
- Improve the comprehensiveness of the Citizens Budget (CB) by: providing the macroeconomic forecast on which the budget is based, as well as additional contact information for follow-up by citizens; establishing mechanisms to identify the public's requirements for budget information in the CB; and publishing CBs for additional stages of the budget process.

Extent of opportunities for public participation in the budget process

few: 0 - 40; limited: 41 - 60; adequate: 61 - 100

Recommendations

To further strengthen public participation in the budget process, Slovenia's Ministry of Finance should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Slovenia's Parliament has established public hearings related to the approval of the annual budget, but should also prioritize the following actions:

- Allow any member of the public or any civil society organization to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Slovenia's Court of Audit has established mechanisms to assist the supreme audit institution in developing its audit program. It should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to contribute to relevant audit investigations.

Budget Oversight

The OBS also examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Slovenia, together, provide adequate oversight during the budget process, with a composite oversight score of **82** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Legislative oversight

Audit oversight

weak: 0 - 40; limited: 41 - 60; adequate: 61 - 100

Recommendations

Slovenia's Parliament provides adequate oversight during the planning stage of the budget cycle and adequate oversight during the implementation stage. To further improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.

To strengthen independence and improve audit oversight by the Slovenia Court of Audit, the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Slovenia's independent fiscal institution (IFI) is the Slovenian Fiscal Council. Its independence is set in law, and it reports to the executive. It publishes its own macroeconomic and fiscal forecasts, and its own cost estimates of some new policy proposals.

**The indicators for IFIs are *not* scored*

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2018 were assessed in the OBS 2019.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Ajda Pistotnik
Društvo EnaBanda
Trg Prekomorskih brigad 1 SI - 1000 Ljubljana, Slovenia
ajda@enabanda.si
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Slovenia by a representative of the Ministry of Finance.
