## About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – affect how equal a society is and the well-being of its people, including whether the most disadvantaged will have real opportunities for a better life. It is critical that governments inform and engage the public on these vital decisions that impact their lives.

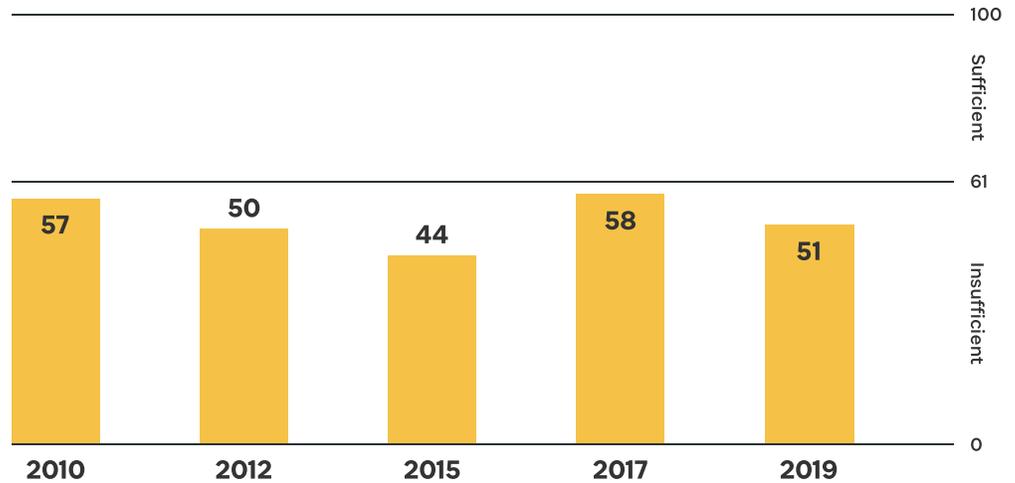

**The Open Budget Survey (OBS)** is the world's only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions such as the legislature and auditor in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 7th edition of the OBS covers 117 countries.

## What changed in OBS 2019?

Turkey has decreased the availability of budget information by:

- Producing the Mid-Year Review for internal use only. It was subsequently published after the survey's research cut-off date and later than the timeliness criteria for Mid-year reviews.

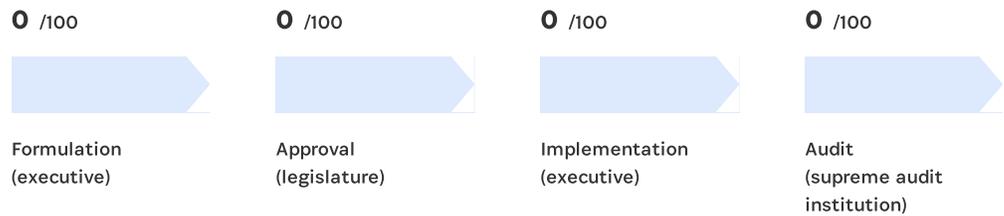

## Recommendations

Turkey should prioritize the following actions to improve budget transparency:

- Publish the Pre-Budget Statement and Mid-Year Review online in a timely manner.
- Include in the Executive's Budget Proposal financial and macroeconomic information and data related to performance budgeting.
- Improve the comprehensiveness of the Audit Report and Citizens Budget.

## Extent of opportunities for public participation in the budget process

few: 0 - 40; limited: 41 - 60; adequate: 61 - 100

## Recommendations

To further strengthen public participation in the budget process, Turkey's Ministry of Finance should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Turkey's Grand National Assembly of Turkey should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Turkey's Court of Accounts should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

# Budget Oversight

The OBS also examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Turkey, together, provide limited oversight during the budget process, with a composite oversight score of **56** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

## Legislative oversight

## Audit oversight

weak: 0 - 40; limited: 41 - 60; adequate: 61 - 100

## Recommendations

Turkey's Grand National Assembly of Turkey provides limited oversight during the planning stage of the budget cycle and weak oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.

- In practice, ensure the legislature is consulted before the executive shifts funds specified in the Enacted Budget between administrative units; spends any unanticipated revenue; or reduces spending due to revenue shortfalls during the budget year.

To strengthen independence and improve audit oversight by the Turkey Court of Accounts, the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

### **The emerging practice of establishing independent fiscal institutions**

Turkey does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

# Methodology

---

- Only documents published and events, activities, or developments that took place through 31 December 2018 were assessed in the OBS 2019.
- The survey is based on a questionnaire completed in each country by an independent budget expert:  
Bircan Polat  
Türkiye Ekonomik ve Sosyal Etüdler Vakfı (TESEV)  
Sok. Efe Apt. No: 6/9 34357 Beşiktaş, İstanbul, Turkey

- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert.
