

**TRANSPARENCY**  
(OPEN BUDGET INDEX)

**38**

The Government of Liberia provides the public with **minimal** budget information.

OUT OF 100

**PUBLIC PARTICIPATION**

**21**

OUT OF 100

The Government of Liberia is **weak** in providing the public with opportunities to engage in the budget process.

**BUDGET OVERSIGHT**

**33**

OUT OF 100

**BY LEGISLATURE**  
Budget oversight by the legislature in Liberia is **weak**.

**33**

OUT OF 100

**BY AUDIT**  
Budget oversight by the supreme audit institution in Liberia is **weak**.

**TRANSPARENCY (OPEN BUDGET INDEX)**

Drawing on internationally accepted criteria developed by multilateral organizations, the Open Budget Survey uses 109 indicators to measure budget transparency. These indicators are used to assess whether the central government makes eight key budget documents available to the public in a timely manner and whether the data contained in these documents are comprehensive and useful.

Each country is given a score out of 100 which determines its ranking on the Open Budget Index – the world’s only independent and comparative measure of budget transparency.

**Regional Comparison**

**Usefulness of Budget Information Throughout the Budget Cycle**

Liberia's score of 38 out of 100 is moderately lower than the global average score of 45.

**Change in Transparency Over Time**

Note: The following categories are used to report the usefulness of each document:

Not produced, Published Late, Internal Use, Scant, Minimal, Limited, Substantial, or Extensive.

# TRANSPARENCY (OPEN BUDGET INDEX)

## The Availability of Budget Documents Over Time

Document	2008	2010	2012	2015
Pre-Budget Statement	●	●	●	●
Executive's Budget Proposal	●	●	●	●
Enacted Budget	●	●	●	●
Citizens Budget	●	●	●	●
In-Year Reports	●	●	●	●
Mid-Year Review	●	●	●	●
Year-End Report	●	●	●	●
Audit Report	●	●	●	●

● Not produced/published late ● Produced for internal use ● Published

Liberia's score of 38 on the 2015 Open Budget Index is largely the same as its score in 2012.

Moreover, the Government of Liberia has been inconsistent in which documents are made publicly available in a given year.

Since 2012, the Government of Liberia has increased the availability of budget information by:

- Improving the comprehensiveness of the Executive's Budget Proposal.
- Improving the comprehensiveness of the Mid-Year Review and the Enacted Budget.

However, the Government of Liberia has decreased the availability of budget information by:

- Failing to publish the Pre-Budget Statement and the Citizens Budget in a timely manner.
- Failing to produce and publish the Year-End Report.

# PUBLIC PARTICIPATION

Evidence suggests that transparency alone is insufficient for improving governance, and that public participation in budgeting can maximize the positive outcomes associated with greater budget transparency.

To measure public participation, the Open Budget Survey assesses the degree to which the government provides opportunities for the public to engage in budget processes. Such opportunities should be provided throughout the budget cycle by the executive, the legislature, and the supreme audit institution.

## Elements of Public Participation

Liberia's score of 21 out of 100 indicates that the provision of opportunities for the public to engage in the budget process is **weak**. This is lower than the global average score of 25.

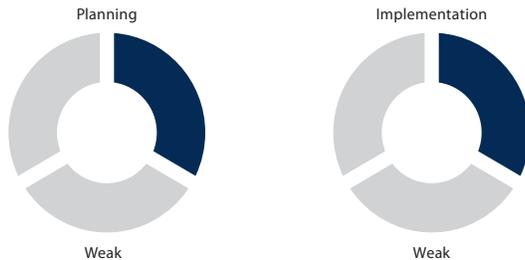

## Regional Comparison

# BUDGET OVERSIGHT

The Open Budget Survey examines the extent to which legislatures and supreme audit institutions are able to provide effective oversight of the budget. These institutions play a critical role – often enshrined in national constitutions – in planning budgets and overseeing their implementation.

## Oversight by the Legislature

The legislature provides **weak** oversight during the planning and implementation stages of the budget cycle. The executive does not receive prior approval by the legislature before implementing a supplemental budget. In both law and practice, the legislature is not consulted prior to the virement of funds in the Enacted Budget, spending any unanticipated revenue, or spending contingency funds that were not identified in the Enacted Budget.

## Oversight by the Supreme Audit Institution

The supreme audit institution provides **weak** budget oversight. Under the law, it has full discretion to undertake audits as it sees fit. However, the head of the supreme audit institution can be removed without legislative or judicial approval, which undermines its independence. Finally, the supreme audit institution is provided with insufficient resources to fulfill its mandate and has a weak quality assurance system in place.

# RECOMMENDATIONS

## Improving Transparency

Liberia should prioritize the following actions to improve budget transparency:

- Publish an Audit Report.
- Publish in a timely manner a Pre-Budget Statement and a Citizens Budget.
- Produce and publish a Year-End Report.

## Improving Participation

Liberia should prioritize the following actions to improve budget participation:

- Establish credible and effective mechanisms (i.e., public hearings, surveys, focus groups) for capturing a range of public perspectives on budget matters.
- Publish reports on public budget hearings.
- Provide detailed feedback on how public assistance and participation has been used by the supreme audit institution.

## Improving Oversight

Liberia should prioritize the following actions to strengthen budget oversight:

- Ensure the Executive's Budget Proposal is approved by legislators at least one month before the start of the budget year.
- In both law and practice, ensure the legislature is consulted prior to the virement of funds in the Enacted Budget, the spending of any unanticipated revenue, and the spending of contingency funds that were not identified in the Enacted Budget.
- Require legislative or judicial approval to remove the head of the supreme audit institution.

# METHODOLOGY

The Open Budget Survey uses internationally accepted criteria developed by multilateral organizations such as the International Monetary Fund (IMF), the Organisation for Economic Co-operation and Development (OECD), and the International Organisation of Supreme Audit Institutions (INTOSAI). It is a fact-based research instrument that assesses what occurs in practice through readily observable phenomena. The entire research process took approximately 18 months between March 2014 and September 2015 and involved about 300 experts in 102 countries. The Survey was revised somewhat from the 2012 version to reflect emerging developments in accepted good practice and to strengthen individual questions. A full discussion of these changes can be found in a technical note on the comparability of the Open Budget Index over time (see below).

Survey responses are typically supported by citations and comments. This may include a reference to a public document, an official statement by the government, or comments from a face-to-face interview with a government official or other knowledgeable party.

The Survey is compiled from a questionnaire completed for each country by independent budget experts who are not associated with the national government. Each country's questionnaire is then independently reviewed by an anonymous expert who also has no association to government. In addition, IBP invites national governments to comment on the draft results from the Survey and considers these comments before finalizing the Survey results.

Despite repeated efforts, IBP was unable to get comments on the draft Open Budget Questionnaire results from the Government of Liberia.

Research to complete this country's Open Budget Survey was undertaken by:
