Open Budget Survey 2017

Questionnaire

Bangladesh

January 2018
COUNTRY QUESTIONNAIRE: BANGLADESH

PBS-1: What is the fiscal year of the PBS evaluated in this Open Budget Survey questionnaire? Please enter the fiscal year in the following format: “FY YYYY” or “FY YYYY-YY.”

Answer: FY 2016-17

Sources: The PBS is not released to the public.

IBP comment: Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

PBS-2: When is the PBS made available to the public?

a. (100) At least four months in advance of the budget year, and at least one month before the Executive’s Budget Proposal is introduced in the legislature
b. (67) At least two months, but less than four months, in advance of the budget year, and at least one month before the Executive’s Budget Proposal is introduced in the legislature
c. (33) Less than two months in advance of the budget year, but at least one month before the Executive’s Budget Proposal is introduced in the legislature
d. (0) The PBS is not released to the public, or is released less than one month before the Executive’s Budget Proposal is introduced to the legislature

Answer: d.

IBP comment: Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

PBS-3a: If the PBS is published, what is the date of publication of the PBS? Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. Please enter the date in the following format: “DD Month YYYY.” For example, 5 September 2016 should be entered as 05 September 2016. If the document is not published or not produced, please mark this question “n/a.”

**Opinion:** Agree with Comments

**Comments:** Using Medium Term Budgetary Framework (MTBF) Govt. produces some expenditure forecasts for three years including the budget year. Some forecast of KPIs are also available but revenue side is mostly ignored. However in recent times Govt. is producing another document named Medium Term Macroeconomic Policy Statement (MTMPS) which is much more comprehensive in coverage. **Comments:** There is no formal Citizen’s Budget but informally different media, business chambers and civil society organizations conduct discussions before budget proposal where they come up with their expectations and it works as an indirect pressure on Finance Minister.

**Government Reviewer**
**Opinion:** Not Qualified

**Researcher response:** I agree with the PR that a series pre-budget discussions are held by the civil society. The questions is about ‘citizen version’ of PBS. As PBS is not formally produced, there is no ‘citizen version’ of PBS.

**IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. **Researcher response:** attached Appropriation Bill 2016

**IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

**EB-8:** Is there a “citizens version” of the EB?

**a.** Yes

**b.** No

**Answer:** b.

CB-1: What is the fiscal year of the CB evaluated in this Open Budget Survey questionnaire? Please enter the fiscal year in the following format: “FY YYYY” or “FY YYYY-YY.” If more than one Citizens Budget is produced, for each CB please indicate the document the CB simplifies/refers to, and the fiscal year.

Answer: “n/a”
Sources: “n/a”
Comments: Researcher: Citizen Budget is not produced at all

CB-2a: For the fiscal year indicated above, what is the public availability status of the CB. If more than one Citizens Budget is produced, please complete this questions for one of them, specifying in the comment box below which document you are referring to, and – in the same comment box – which other Citizens Budgets are produced and their public availability status.

a. Produced but made available online to the public too late (published after the acceptable time frame)
b. Produced but made available only in hard copy or soft copy (not available online)
c. Produced for internal purposes/use only
d. Not produced at all
e. Not applicable (the document is publicly available)

Answer: d.
Sources: “n/a”

CB-2b: If you selected option “c” or “d” in question CB-2a above, please specify how you determined whether the CB was produced for internal use only, versus not produced at all. If option “a,” “b,” or “e” was selected in question CB-2a, researchers should mark this question “n/a.”

**IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

**Answer:** d.

**Sources:** EBP documentation does not present multi-year estimates for individual sources of revenue.

**Peer Reviewer**
**Opinion:** Agree with Comments

**Comments:** There is no disaggregate revenue projection for multi-year. However, a limited attempt has been made by providing some three years’ projection in another publication titled Medium Term Macroeconomic Policy Statement (MTMPS).

**Government Reviewer**
**Opinion:** Not Qualified

**Researcher response:** Medium Term Macroeconomic Policy Statement (MTMPS) cited by PR was reviewed as part of EBP documentation. But it does not contain multi-year estimates for individual sources of revenue. Table 4.8, (pp.61-62) of MTMPS includes BY and multi-year estimates only for broad categories of revenue.

**IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. ### 13: Does the Executive’s Budget Proposal or any supporting budget documentation present three estimates related to government borrowing and debt: the amount of net new borrowing required during the budget year; the total debt outstanding at the end of the budget year; and interest payments on the debt for the budget year?

**Answer:**

**Sources:**
14: Does the Executive's Budget Proposal or any supporting budget documentation present information related to the composition of the total debt outstanding at the end of the budget year? (The core information must include interest rates on the debt instruments; maturity profile of the debt; and whether it is domestic or external debt.)

a. (100) Yes, information beyond the core elements is presented for the composition of the total debt outstanding.
b. (67) Yes, the core information is presented for the composition of the total debt outstanding.
c. (33) Yes, information is presented, but it excludes some core elements.
d. (0) No, information related to composition of total debt outstanding is not presented.
e. Not applicable/other (please comment).

Sources: EBP documentation provides budget year estimates for 1 of 3 core elements related to the composition of Government debt. Data for the amount of domestic and external stock of debt (as well as interest payments) is presented in the Medium Term Macroeconomic Policy Statement FY17-FY19. Data for the maturity profile (mainly for domestic debt) of the stock of debt is not presented in the EBP for FY. However, there is some information provided in the Annual Financial Statement on the maturity profile with respect to the flow of debt. No specific data is available for either interest rates, although there is some general commentary and some data for trends related to commercial interest rates in the narrative discussion in Chapter 4 of the MTMPS document.

15: Does the Executive's Budget Proposal or any supporting budget documentation present information on the macroeconomic forecast upon which the budget projections are based? (The core information must include a discussion of the economic outlook with estimates of nominal GDP level, inflation rate, real GDP growth, and interest rates.)

a. (100) Yes, information beyond the core elements is presented for the macroeconomic forecast.
b. (67) Yes, the core information is presented for the macroeconomic forecast.
c. (33) Yes, information is presented, but it excludes some core elements.
d. (0) No, information related to the macroeconomic forecast is not presented.
e. Not applicable/other (please comment).

Answer: b. (67)

Sources: EBP documentation includes the required information for the budget year estimates (data) for 3 of the 4 core elements related to macroeconomic forecasts (nominal GDP, inflation and real GDP growth), with the only missing core element being interest rates. While there is some narrative discussion referring to interest rate trends leading up to the budget year, there are no data present for projections of budget year and beyond. Finally, EBP documentation provides extensive macroeconomic information beyond the core elements, as cited below. Given the absence of data for only 1 core element, this extensive presentation of information beyond the core elements supports a higher "b" assessment (see explanation in "Comment" box below). Information for 3 of the 4 core elements are presented in one table in Medium Term Macroeconomic Policy Statement 2016-17 to 2018-19. 1. Nominal GDP 2. Inflation rate 3. Real GDP growth

Comments: Researcher: Note: In recognition of the extensive EBP presentation of macroeconomic information beyond the core elements and the fact that only one core element is missing, OBS methodology supports an "upgrade" from the "strict" assessment of "c" to an assessment of "b". This "upgrade" has been applied.

16: Does the Executive's Budget Proposal or any supporting budget documentation show the impact of different macroeconomic assumptions (i.e., sensitivity analysis) on the budget? (The core information must include estimates of the impact on expenditures, revenue, and debt of different assumptions for the inflation rate, real GDP growth, and interest rates.)

a. (100) Yes, information beyond the core elements is presented to show the impact of different macroeconomic assumptions on the budget.
b. (67) Yes, the core information is presented to show the impact of different macroeconomic assumptions on the budget.
c. (33) Yes, information is presented, but it excludes some core elements.
d. (0) No, information related to different macroeconomic assumptions is not presented.
e. Not applicable/other (please comment).

Answer: c. (33)

Sources: EBP documentation does present some information about the sensitivity of baseline macroeconomic and fiscal forecasts to alternative macroeconomic assumptions or developments. However, the documentation lacks a formal sensitivity analysis and/or presentation of alternative forecast scenarios around the baseline forecasts based on alternative macroeconomic assumptions/outcomes for the 4 core elements. 18: Does the Executive’s Budget Proposal or any supporting budget documentation present information for at least the budget year that shows how new policy proposals, as distinct from existing policies, affect revenues?

a. (100) Yes, estimates that show how all new policy proposals affect revenues are presented, along with a narrative discussion.
b. (67) Yes, estimates that show how all new policy proposals affect revenues are presented, but a narrative discussion is not included.
c. (33) Yes, information that shows how some but not all new policy proposals affect revenues are presented.
d. (0) No, information that shows how new policy proposals affect revenues is not presented.
e. Not applicable/other (please comment).

Answer: c. (33)

Sources: EBP documentation includes information showing how some but not all new policy proposals affect revenues. EBP documentation includes estimates of individual revenue sources for the budget year, but with no comprehensive listing to distinguish the fiscal impacts of new versus existing revenue policies. EBP documentation does provide an extensive narrative discussion of revenue policy initiatives, with some explanation for how specific initiatives reflect the Government’s broad policy priorities. The scope of narrative discussion describing individual policy measures is particularly extensive and detailed in one chapter of the Budget Speech, while a chapter in the Medium-Term Macroeconomic Policy Statement (MTMPS) provide some limited measurement of expected revenue impacts from policy changes. Narrative discussion with some expenditure estimates
data for new revenue policies: 1. Budget Speech: Chapter IX: Revenue Mobilization: Revenue for the People, pp.28-39 Tables showing existing versus proposed tax rates (but no data for expected impact on revenues) Table 7: Company Tax Rates (existing vs proposed) Table 8: Rates of Surcharge based on Disclosed Net Wealth of Individual Tax Payers The chapter also includes many other cases in which narrative is describing proposed changes to specific revenue policies. However, as noted, there is little or no presentation of data for the fiscal impacts that the proposed revenue policy changes are expected to have on the budget. Budget Speech 2016-17 http://www.mof.gov.bd/en/index.php?option=com_content&view=article&id=364&Itemid=1 2. MTMPS: Chapter Four: Revenue Mobilization and Debt Strategy, pp.70-98 Chapter IV focuses mostly on trends in revenue performance, but it also includes some discussion of specific budget year policy changes and some commentary (and broad-level) data for expected impact on revenues. This material is presented in sections entitled “Reform Initiatives in Revenue Sector” (pp.56-57) and “Medium-Term Revenue Outlook” (pp.57-58), with the principal 2 examples of how specific policy changes are expected to impact revenues being for the VAT and customs duties. Other measures noted in the discussion relate to tax administration. **IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.
30: In the Executive's Budget Proposal or any supporting budget documentation, what is the most recent year presented for which all revenues reflect actual outcomes?

a. (100) Two years prior to the budget year (BY-2).

b. (67) Three years prior to the budget year (BY-3).

c. (33) Before BY-3.

d. (0) No actual data for all revenues are presented in the budget or supporting budget documentation.

e. Not applicable/other (please comment).

Answer: a. (100)

Sources: EBP documentation provides actual revenue data for BY-2. For example, see: Statement I: Broad Details of Revenue Receipts, p.5 Budget in Brief 2016-17 http://www.mof.gov.bd/en/budget/16_17/brief/en/St1.pdf

31: Does the Executive's Budget Proposal or any supporting budget documentation present information on government borrowing and debt, including its composition, for the year proceeding the budget year (BY-1)? (The core information must include the total debt outstanding at the end of BY-1; the amount of net new borrowing required during BY-1; interest payments on the debt; interest rates on the debt instruments; maturity profile of the debt; and whether it is domestic or external debt.)

a. (100) Yes, information beyond the core elements is presented for government debt.

b. (67) Yes, the core information is presented for government debt.

c. (33) Yes, information is presented, but it excludes some core elements.

d. (0) No information related to government debt is not presented.

e. Not applicable/other (please comment).

Answer: b. (67)

Comments: Researcher: Note: Given the absence of complete data for only 1 core element (interest rates on Government debt) and factoring in both that there is both some relevant information provided (for commercial interest rates) and substantive information "beyond the core elements", OBS methodology supports an "upgrade" in the overall assessment to "b" from the "strict" response of "c".

32: In the Executive’s Budget Proposal or any supporting budget documentation, what is the most recent year presented for which the debt figures reflect actual outcomes?

a. (100) Two years prior to the budget year (BY-2).
b. (67) Three years prior to the budget year (BY-3).
c. (33) Before BY-3.
d. (0) No actual data for government debt are presented in the budget or supporting budget documentation.
e. Not applicable/other (please comment).

(The core information must include a statement of purpose or policy rationale for the extra-budgetary fund; and complete income, expenditure, and financing data on a gross basis.)

a. (100) Yes, information beyond the core elements is presented for all extra-budgetary funds.
b. (67) Yes, the core information is presented for all extra-budgetary funds.
c. (33) Yes, information is presented, but it excludes some core elements or some extra-budgetary funds.

**34:** Does the Executive’s Budget Proposal or any supporting budget documentation present central government finances (both budgetary and extra-budgetary) on a consolidated basis for at least the budget year?

- **a.** (100) Yes, central government finances are presented on a consolidated basis.
- **b.** (0) No, central government finances are not presented on a consolidated basis.
- **c.** Not applicable/other (please comment).

**Answer:** b.

**Sources:** Although there are tables referring to “Consolidated Funds”, it appears that there are also EBFs that are not fully captured by these “consolidated” reports. Table 1 of Annual Financial Statement: Summary of Budget Estimates This table shows Consolidated Fund - Receipts and Consolidated Fund -Expenditure as well as other items previously cited as aggregate EBF receipts and payments (Public Accounts). However, other indications suggest that not all EBFs are included within this accounting. **Answer:** d.

**Sources:** EBP documentation does not provide long-term projections of fiscal sustainability (covering a period of at least 10 years) based on a stated set of macroeconomic and demographic assumptions nor a statement of the fiscal implications and risks highlighted by the such long-term projections. There is only a general reference in the MTMPS document (pp.63-64) to a Debt Sustainability Analysis (DSA) conducted as part of the Government’s medium and long-term planning for borrowing. The source of the information about selected tax concessions is the Budget Speech Chapter IX: Revenue Mobilization: Revenue for the People, pp.70-98 This section of the Budget Speech highlights some specific tax concessions including in some cases a brief explanation of their respective policy rationale and the concessionary rates, but there are no estimates of the impacts on Government revenues (i.e. foregone revenue). Medium Term Macroeconomic Policy Statement FY17-FY19 The MTMPS document provides greater attention to the medium-term horizon for planned resource allocations and their intended support for achieving the Government's broad fiscal policy objectives (for sustainability and growth) and medium-term sector-specific strategic objectives and policy goals. This can be found in two chapters: Chapter 1: Sustainable Development and Equitable Distribution, pp.1-15 Chapter 3: Government Spending and Sectoral Priorities, pp.29-49 Medium Term Macroeconomic Policy Statement FY17-FY19 http://www.mof.gov.bd/en/index.php?option=com_content&view=article&id=354&Itemid=1 3. Medium-Term Budgetary Framework (MTBF) 2016-17 to 2018-19 “Medium-Term Budget Framework” documents for each individual administrative unit provide concise, comprehensive and detailed descriptions and a complete set of estimates for budget year, as well as for the medium-term horizon inclusive of BY+1 (FY2017-18) and BY+2 (FY2018-19). These documents provide clear linkages between the Government's (sector) policy goals and resources allocated for both the budget year (and over a medium-term horizon) for specific programs. http://www.mof.gov.bd/en/index.php?option=com_content&view=article&id=356&Itemid=1

**Comments:** In supporting documents the linkage is too some extent evident. However, it is not clearly revealed through numbers mentioned in the EBP. EBP mentions about ten years' perspective plan and five year plans broadly though. It is not quite clear how far the plan documents are being consulted during the preparation of annual budget.

**IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”; because the government did not provide any comments to any of the questions in the Open Budget Survey.

49: Does the Executive's Budget Proposal or any supporting budget documentation present nonfinancial data on inputs to be acquired for at least the budget year?

a. (100) Yes, nonfinancial data on inputs to be acquired are provided for each program within all administrative units (or functions).

b. (67) Yes, nonfinancial data on inputs to be acquired are presented for all administrative units (or functions) but not for all (or any) programs.

c. (33) Yes, nonfinancial data on inputs to be acquired are presented for some programs and/or some administrative units (or functions).

d. (0) No, nonfinancial data on inputs to be acquired are not presented.

e. Not applicable/other (please comment).

**Answer:** c. (33)
Sources: EBP documentation provides non-financial data on inputs to be acquired for some programs and/or some administrative units (or functions). Multiple EBP documents contribute to the extensive non-financial data/information provided for result across all functions (and many individual administrative units and programs) 1. **IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

IBP comment: Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

91: Does the Year-End Report present the differences between the original macroeconomic forecast for the fiscal year and the actual outcome for that year?

a. (100) Yes, estimates of the differences between all of the original macroeconomic assumptions for the fiscal year and the actual outcome for that year are presented, along with a narrative discussion.

b. (67) Yes, estimates of the differences between all the original macroeconomic assumptions for the fiscal year and the actual outcome for that year are presented, but a narrative discussion is not included.

c. (33) Yes, estimates of the differences between some but not all of the original macroeconomic assumptions for the fiscal year and the actual outcome for that year are presented.

d. (0) No, estimates of the differences between the original macroeconomic forecast for the fiscal year and the actual outcome for that year is not presented.

e. Not applicable/other (please comment).

a. (100) Yes, the executive reports publicly on what steps it has taken to address audit findings.
b. (67) Yes, the executive reports publicly on most audit findings.
c. (33) Yes, the executive reports publicly on some audit findings.
d. (0) No, the executive does not report on steps it has taken to address audit findings.
e. Not applicable/other (please comment).

Answer: d.

Sources: All audit findings must be replied by the offices concerned. And all ministries, divisions and other institutions must answer all audit observations made by the SAIs. All concerned must answer within the stipulated time, otherwise it might go to the Public Accounts Committee (PAC). However, these are not available to the public.

102: Does either the Supreme Audit Institution (SAI) or legislature release to the public a report that tracks actions taken by the executive to address audit recommendations?

c. (33) Yes, the SAI or legislature reports publicly on some audit recommendations.
d. (0) No, neither the SAI nor legislature reports on steps the executive has taken to address audit recommendations.
e. Not applicable/other (please comment).

Answer: d.

Sources: Public Accounts Committee (PAC) reports publicly on most audit recommendations. Hard copies of Annual Report by Public Accounts Committee (PAC) are available upon request, but the report is not available online. Public Accounts Committee (PAC) make available to the public a report on what steps it has taken to address audit recommendations or findings that indicate a need for remedial action. “The Public Accounts Committee (PAC) of Bangladesh Parliament derives its mandate from the Article- 76 of the Constitution of the People’s Republic of Bangladesh and the Rule-233 of the Rules of Procedure of Parliament of the People’s Republic of Bangladesh. The functions of PAC are to examine reports prepared by the Comptroller and Auditor General (CAG) with an aim to identifying financial issues to be resolved as well as making recommendations on how to improve performance in the future”.

**Researcher response:** Comprehensive information are available in the guideline how to engage public. For example, all the implementation guidelines of social safety net programs are available in the website of Ministry of Social Welfare (in Bengali) [http://www.msw.gov.bd/site/view/policies/%E0%A6%AC%E0%A6%BF%E0%A6%AE%E0%A6%B2%E0%A6%BE](http://www.msw.gov.bd/site/view/policies/%E0%A6%AC%E0%A6%BF%E0%A6%AE%E0%A6%B2%E0%A6%BE).

IBP comment: IBP revised the score from “b” to “c” based on cross country consistency. No evidence could be found to support the criteria that comprehensive information was provided in a timely manner to the invited stakeholders during the 2016/17 pre-budget discussions. IBP notes that the example provided by the researcher relates to the Ministry of Social Welfare rather than the Ministry of Finance. However, answer choice “c” was accepted due to the researcher’s assessment that some information on the pre-budget consultations is included in the budget timetable (Q134).

132: With regard to the mechanism identified in question 125, does the executive provide the public with feedback on how citizens’ inputs have been used in the formulation of the annual budget?

**IBP comment:** Despite repeated requests to the Government of Bangladesh for its comments on the draft Open Budget Questionnaire results, IBP did not receive a positive response to its invitation to review the draft Open Budget Questionnaire. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

136: Does the legislature or the relevant legislative committee(s) hold public hearings and/or use other participation mechanisms through which the public can provide input during its public deliberations on the formulation of the annual budget (pre-budget and/or approval stages)?

a. (100) Yes, public hearings are held, and members of the public/CSOs testify.

b. (67) Yes, public hearings are held. No testimony from the public is provided during the public hearings, but contributions from the public are received through other means.

c. (33) Yes, public hearings are held. No testimony from the public is provided during the public hearings, and there are no other mechanisms through which public contributions are received, but the legislature invites specific individuals or groups to testify or provide input (participation is not, in practice, open to everyone).

d. (0) The requirements for a “c” response or above are not met.

e. Not applicable (please comment).

Answer: c. (33)

Sources: Public hearings are often held by the Parliamentary Standing Committee on Ministry of Finance during formulation of the budget.
During the legislative deliberations on the annual budget (pre-budget or approval stages), which of the following key topics does the legislature’s (or relevant legislative budget committee) engagement with citizens cover?

For the purpose of this question, key topics are considered to be:

1. Macroeconomic issues
2. Revenue forecasts, policies, and administration
3. Social spending policies
4. Deficit and debt levels
5. Public investment projects
6. Public services

a. (100) The legislature seeks input on all six topics
b. (67) The legislature seeks input on at least three (but less than six) of the above-mentioned topics
c. (33) The legislature seeks input on at least one (but less than three) of the above-mentioned topics
d. (0) The requirements for a “c” response or above are not met.
e. Not applicable (please comment).

Answer: d.

Sources: The legislature seeks input on most of the above-mentioned topics particularly at the pre-budget stage. “In order to make budget making process more participatory and transparent, like previous years, I had a series of dialogues with the honourable standing committee members of parliament, renowned economists, professionals, business associations, NGO leaders, farmers, journalists and secretaries of all ministries and divisions.” Finance Minister in the Budget Speech 2016–17, P. 2

Comments: Researcher: Parliamentary committee is holding meetings with various citizen groups to discuss most of the issues mentioned in question 137 but the meeting minutes are not available.
**139: Does the legislature hold public hearings and/or use other participation mechanisms through which the public can provide input during its public deliberations on the Audit Report?**

a. (100) Yes, public hearings on the Audit Report are held, and members of the public/CSOs testify.

b. (67) Yes, public hearings on the Audit Report are held. No testimony from the public is provided during the hearings, but contributions from the public are received through other means.

c. (33) Yes, public hearings on the Audit Report are held. No testimony from the public is provided during the hearings and there are no other mechanisms through which public contributions are received, but the legislature invites specific individuals or groups to testify or provide input (participation is not, in practice, open to everyone).

d. (0) The requirements for a “c” response or above are not met.

e. Not applicable (please comment).

**Answer:** d.
