

COVID -19 CONTRACTS MONITORING

<https://www.open-contracting.org/what-is-open-contracting/covid19/#resources>

Lift
OPEN
CONTRACTING
PARTNERSHIP

Everyone is affected!

Government

Business

Civil society

Will it connect us?!

Challenges we face

Government

- **Poor coordination** on a central and local level
- **Lack of data** on need, stock, market availability etc.
- **“Hunger games”** on national and global markets
- **“Responsibility”** for all causes and deaths

Business

- **Poor communication** from government
- **Restricted access to procurement opportunities**
- **Unfair treatment** from government
- **Corruption** allegations

Citizens

- **Lack of knowledge** on real situation
- **Access to information** on public procurement
- **No access to decent treatment**

Open contracting can help...

**REBUILDING
BETTER
TOGETHER**

Open contracting helps to plan, buy and deliver supplies & services better

Data driven CSO monitoring and journalism is effective in increasing accountability

EXAMPLES

- Ukraine
- Colombia
- Chile
- Paraguay
- Moldova
- Nigeria
- S Africa
- And many others

RECOMMENDATIONS

Policy : Ask governments to make emergency procedures public and open.

Coordination: Ask governments to set clear goals & priorities and consolidating emergency committees for quick decision -making.

Data: When possible, improve and use open procurement data to analyze and share information for transparency and monitoring.

Partnerships: Build partnerships with government, business and/or civil society coalitions to advocate and monitor together

Advocacy and monitoring : Advocate for and monitor efficient spending and delivery of goods and services.
