

Open Budget Survey 2017

Questionnaire

Sri Lanka

January 2018

COUNTRY QUESTIONNAIRE: SRI LANKA

PBS-1: What is the fiscal year of the PBS evaluated in this Open Budget Survey questionnaire? Please enter the fiscal year in the following format: "FY YYYY" or "FY YYYY-YY."

Answer: FY 2017

Sources: The upcoming budget is for the year 2017. Budget documents available at the Ministry of Finance website: <http://www.treasury.gov.lk/web/guest/budget-archives> (<http://www.treasury.gov.lk/web/guest/budget-archives>)

Comments: Researcher: Sri Lanka's PBS is produced internally and is not publicly available. Please refer comment on question PBS- 2.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

PBS-2: When is the PBS made available to the public?

- a. (100) At least four months in advance of the budget year, and at least one month before the Executive's Budget Proposal is introduced in the legislature
- b. (67) At least two months, but less than four months, in advance of the budget year, and at least one month before the Executive's Budget Proposal is introduced in the legislature
- c. (33) Less than two months in advance of the budget year, but at least one month before the Executive's Budget Proposal is introduced in the legislature
- d. (0) The PBS is not released to the public, or is released less than one month before the Executive's Budget Proposal is introduced to the legislature

Answer: d.

Comments: Researcher: The legislature does not publish a PBS prior to the Executive budget proposal. However the 2017 budget is prepared according to the Medium Term Budgetary Framework 2016-2018. The framework is also available on the Budget Speech 2017 document (A supplementary document of the EBP) from page 122-123. However as the publication of the budget speech is the same as the EBP date the PBS is published with a delay. This is mentioned in the Budget Call to the ministries and the administrative units are advised to ensure the budget proposals are inline with the framework. Therefore the PBS is considered an internal document.

Answer: The Department of National Budget of the Ministry of Finance requests all ministries to submit their budgets for the national budget. They are requested to formulate the budget according to the Medium Term Budgetary Framework that outlines the budgetary targets of the government. This document is made available to the public. However the budget call refers to the economic goals of the government for the budget year.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

EBP-5: If the EBP is published, are the numerical data contained in the EBP or its supporting documents available in a machine readable format?

- a. Yes, all of the numerical data are available in a machine readable format
- b. Yes, some of the numerical data are available in a machine readable format
- c. No
- d. Not applicable

Answer: c.

EBP-8: Is there a "citizens version" of the EBP?

a. Yes

b. No

Answer: b.

Sources: There is no document that would qualify as a citizen's budget. The Budget Speech 2017 document lists the proposals and illustrates the revenue, expenditure (highlighting important sectors such as education) and debt through graphs and visuals. However, it does not contain adequate information to qualify as a CB. Link to Budget Speech: (Refer Page 113 onward)

Comments: Researcher: While the graphs on Annex VII enhances comprehension of the details of the budget, it does not address 2 key areas to qualify as a Citizen's Budget: (1) There should be some narrative explanation to support the quantitative information provided (though I have seen CB docs with little or no narrative; and (2) it needs to be produced as a separate document that is NOT also being cited as part of EBP documentation. The current information can be further tailored, developed and improved in scope and type of information (qualitative and quantitative) to serve as a CB.

EB-1a: What is the fiscal year of the EB evaluated in this Open Budget Survey questionnaire? Please enter the fiscal year in the following format: “FY YYYY” or “FY YYYY-YY.”

Answer: FY 2016

Comments: Researcher: The EB for 2016 is considered as the EB of 2017 is yet to be published. While the Act is the enacted budget the details are available in the finalised budget estimates. Therefore both these documents were considered for the survey. The Appropriation Act No 16 of 2015 was amended in 2016 through the Appropriation (Amendment) Act No 23 of 2016. The Appropriation Bill for the 2017 budget was approved by parliament on 10th December by majority vote but the Act is yet to be available. However the Ministry of Finance must publish it before 10th March 2017 for the document to be publicly available.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

EB-6b: If you selected option “c” or “d” in question EB-6a above, please specify how you determined whether the EB was produced for internal use only, versus not produced at all. If option “a,” “b,” or “e” was selected in question EB-6a, researchers should mark this question “n/a.”

Researcher response: The document cited by the PR as the MYR (“Mid-Year Fiscal Position Report - 2016”). available at: <http://www.treasury.gov.lk/documents/10181/12882/2016/2ef881...> (<http://www.treasury.gov.lk/documents/10181/12882/2016/2ef88149-3cf1-48c0-8120-b6dad3b2bef3?version=1.0>), released on 30th July 2016, it does not qualify as a mid-year report under OBS criteria for the following reasons; 1) it only reports data from January-April and does not complete a 6 month period and 2) does not report revised annual macroeconomic and/or fiscal forecasts. Other documents from the MoF such as the Fiscal Management Report, also do not qualify as it was not intended to be a MYR, it does not contain the first half of the budget period and it is related later than the MYR publication period. Therefore Sri Lanka is assessed as not having a MYR.

Researcher response: The document cited by the PR as the MYR (“Mid-Year Fiscal Position Report - 2016”). available at: <http://www.treasury.gov.lk/documents/10181/12882/2016/2ef881...> (<http://www.treasury.gov.lk/documents/10181/12882/2016/2ef88149-3cf1-48c0-8120-b6dad3b2bef3?version=1.0>), released on 30th July 2016, it does not qualify as a mid-year report under OBS criteria for the following reasons; 1) it only reports data from January-April and does not complete a 6 month period and 2) does not report revised annual macroeconomic and/or fiscal forecasts. Other documents from the MoF such as the Fiscal Management Report, also do not qualify as it was not intended to be a MYR, it does not contain the first half of the budget period and it is related later than the MYR publication period. Therefore Sri Lanka is assessed as not having a MYR.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

MYR-5: If the MYR is published, are the numerical data contained in the MYR available in a machine readable format?

- a. Yes, all of the numerical data are available in a machine readable format
- b. Yes, some of the numerical data are available in a machine readable format
- c. No
- d. Not applicable

Answer: d.

Answer: The state of publication/non-publication was determined by an interview with a Director of the Department of National Budget, Ministry of Finance Sri Lanka.

Sources: The interviewee stated that while there are monthly compilation of fiscal data and quarterly budget review meetings with relevant ministries on the process, there is no internal document that details state budget for the first six months and indicate the reasoning for any required explanation.

Researcher response: The link of the document provided by the PR is the Annual Report of the Department of the Auditor General. Therefore, it contains the activities conducted by the department and the financial statements of the department (page 37). This document was not considered as the Auditor General's report as the AG's message (page 1) itself states that AG Department Annual report is the 7th installment of that is given to the parliament. It was considered to be internally published as it is presented to parliament but not available online. However, the Annual report contains some details in brief of the activities it has identified over various sectors. But as this is not the complete AG's report on state finances, this document was not considered to be the AR. Additionally, the AG Annual Report 2015 (As mentioned by PR) was published on 16th January 2017 which does not qualify the document for OBS 2017.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. - a. (100) Six months or less after the end of the budget year

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

AR-3a: If the AR is published, what is the date of publication of the AR? Researchers should respond to this question if the document is published either within the time frame accepted by the OBS methodology or too late. Please enter the

Comments: Researcher: Budget estimates, Mid year fiscal position report, Fiscal management reports have been consistent through the years with additional information, graphs and charts for further clarity. However due to changes in ministries - number of ministries increasing, several ministries integrating, it becomes difficult to compare between several past documents. For example, the Ministry of Defence and Urban Development in 2014 is segregated as Ministry of Defence, Ministry of Megapolis and Western Region Development, Ministry of City Planning and Water Supply etc. As a result, although the Budget Estimates includes the FY-2 to FY+2 data for each ministry, it is difficult to track the exact fiscal divisions between the various ministry portfolios overtime.

Comments: Researcher: The administrative classification is the main form of budget classification in Sri Lanka.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

2: Does the Executive's Budget Proposal or any supporting budget documentation present expenditures for the budget year by functional classification?

- a. (100) Yes, expenditures are presented by functional classification.
- b. (0) No, expenditures are not presented by functional classification.
- c. Not applicable/other (please comment).

Answer: b.

Comments: Researcher: Each Ministry has a separate table to indicate allocations for major new projects in 2017. Yet this doesn't account for projects carried forward from the previous year. Some departments under each ministry have a separate allocation for 'development activities' where projects are accounted for. Yet some departments have not allocated any funds for this. Overall development activities account for 31% of the total budget.

Comments: Researcher: The question was given 'b' score as the EBP budget documents contained two of the three core elements as well as information beyond core elements. Such additional information 'beyond core elements' includes: -Interest rates on debt: Although the information provided does not provide sufficient coverage for the core element, there is a mention of the need to reduce interest rates by 1.5% in Budget Speech. IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

15: Does the Executive's Budget Proposal or any supporting budget documentation present information on the macroeconomic forecast upon which the budget projections are based? (The core information must include a discussion of the economic outlook with estimates of nominal GDP level, inflation rate, real GDP growth, and interest rates.)

- a. (100) Yes, information beyond the core elements is presented for the macroeconomic forecast.
- b. (67) Yes, the core information is presented for the macroeconomic forecast.
- c. (33) Yes, information is presented, but it excludes some core elements.
- d. (0) No, information related to the macroeconomic forecast is not presented.
- e. Not applicable/other (please comment).

Answer: b. (67)

Comments: Researcher: New proposals and allocated expenditure for almost all projects included in the narrative is available in Budget Speech 2017: Expenditure Proposals - 2017 (Pg. 97) Yet almost all proposals are included in the narrative, with expenditure clearly stated on its side. eg: Education Sector (pg.19) All proposals except the following have been allocated a cost. " introduce new subjects to the Ordinary and Advanced Level curricula such as, Hospitality Management, Fashion Design, Digital Technology, Logistics, and Financial Literacy amongst many others" and "introduce necessary legislation that will enable the establishment of an independent Accreditation, Regulation, Monitoring and Quality Assurance Authority

under the Ministry of National Policies and Economic Affairs, which will oversee the quality of such private educational institutions providing primary and secondary education"

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

30: In the Executive’s Budget Proposal or any supporting budget documentation, what is the most recent year presented for which all revenues reflect actual outcomes?

- a. (100) Two years prior to the budget year (BY-2).
- b. (67) Three years prior to the budget year (BY-3).
- c. (33) Before BY-3.
- d. (0) No actual data for all revenues are presented in the budget or supporting budget documentation.
- e. Not applicable/other (please comment).

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

43: Does the Executive's Budget Proposal or any supporting budget documentation present projections that assess the government's future liabilities and the sustainability of its finances over the longer term? (The core information must

cover a period of at least 10 years and include the macroeconomic and demographic assumptions used and a discussion of the fiscal implications and risks highlighted by the projections.)

- a. (100) Yes, information beyond the core elements is presented to assess the government's future liabilities and the sustainability of its finances over the longer term.
- b. (67) Yes, the core information is presented to assess the government's future liabilities and the sustainability of its finances over the longer term.
- c. (33) Yes, information is presented, but it excludes some core elements.
- d. (0) No, information related to future liabilities and the sustainability of finances over the longer term is not presented.
- e. Not applicable/other (please comment).

64: What information is provided in the Citizens Budget? (The core information must include expenditure and revenue totals, the main policy initiatives in the budget, the macroeconomic forecast upon which the budget is based, and contact information for follow-up by citizens.)

- a. (100) The Citizens Budget provides information beyond the core elements.
- b. (67) The Citizens Budget provides the core information.
- c. (33) The Citizens Budget provides information, but it excludes some core elements.
- d. (0) The Citizens Budget is not published.
- e. Not applicable/other (please comment).

Answer: d.

Sources: The Ministry of Finance does not compile a Citizens Budget on any of the budget documents or releases information in a format that could be identified as a Citizens budget. Therefore, according to the OBS methodology the appropriate response is "d"

Comments: Researcher: It must be noted that the material produced by the government appearing at the end of the Budget Speech - such as the graphs and tables, as well as information in the Budget Estimates such as the key performance indicators of ministries, make a good starting point for a Citizens Budget document. The CB however, should be produced as a separate purpose-specific document to dissemination budget information to the public (at the same time as when the EBP or other budget document is produced and released).

- a. (100) Yes, information beyond the core elements is presented for the composition of the total actual debt outstanding.
- b. (67) Yes, the core information is presented for the composition of the total actual debt outstanding.
- c. (33) Yes, information is presented, but it excludes some core elements.
- d. (0) No, information related to composition of total actual debt outstanding is not presented.
- e. Not applicable/other (please comment).

Answer: c. (33)

Sources: Two of the three core components are not included in the IYR, but the composition of debt is indicated. - Composition of debt (domestic/foreign) Worksheet: The Outstanding Government Debt worksheets Link to the website containing MS Excel sheets with data: DATA & STATISTICS PUBLISHED BY MINISTRY OF FINANCE <http://www.treasury.gov.lk/data-statistics-published-by-mini...> (<http://www.treasury.gov.lk/data-statistics-published-by-ministry-of-finance>)

Comments: Researcher: In addition to the domestic/foreign composition, the worksheet also contains information of the different types of debt instruments. They provide some broad information on the maturity profile (can somewhat determine the short term/long term nature of the information by assessing the type of instrument, e.g.: treasury bills and bonds which account for approximately 80% of domestic debt) However, the information available on the worksheet is not comprehensive enough to be taken as a core element.

Researcher response: The document cited by the PR as the MYR (“Mid-Year Fiscal Position Report - 2016”). available at: <http://www.treasury.gov.lk/documents/10181/12882/2016/2ef881...> (<http://www.treasury.gov.lk/documents/10181/12882/2016/2ef88149-3cf1-48c0-8120-b6dad3b2bef3?version=1.0>), released on 30th July 2016, it does not qualify as a mid-year report under OBS criteria for the following

reasons; 1) it only reports data from January-April and does not complete a 6 month period and 2) does not report revised annual macroeconomic and/or fiscal forecasts. Other documents from the MoF such as the Fiscal Management Report, also do not qualify as it was not intended to be a MYR, it does not contain the first half of the budget period and it is related later than the MYR publication period. Therefore Sri Lanka is assessed as not having a MYR.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

77: Does the Mid-Year Review of the budget include updated expenditure estimates for the budget year underway?

- a. (100) Yes, expenditure estimates have been updated, and an explanation of all of the differences between the original and updated expenditure estimates is presented.
- b. (67) Yes, expenditure estimates have been updated, and an explanation of some of the differences between the original and updated expenditure estimates is presented.
- c. (33) Yes, expenditure estimates have been updated, but an explanation of the differences between the original and updated expenditure estimates is not presented.
- d. (0) No, expenditure estimates have not been updated.
- e. Not applicable/other (please comment).

This demand an increased contribution from the General Treasury by Rs. 1,042 million, which was an increase of 99 percent over 2014, as the contribution of the Mahapola Trust Fund was inadequate to cover the increased cost.' IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

89: Does the Year-End Report present individual sources of revenue?

- a. (100) Yes, the Year-End Report presents individual sources of revenue accounting for all revenue.
- b. (67) Yes, the Year-End Report presents individual sources of revenue accounting for at least two-thirds of, but not all, revenue.
- c. (33) Yes, the Year-End Report presents individual sources of revenue accounting for less than two-thirds of all revenues.
- d. (0) No, the Year-End Report does not present individual sources of revenue.
- e. Not applicable/other (please comment).

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. Answer: d.

Sources: Oversight committees are able to look into budget allocations but they currently do not engage in such activity. However, looking at budget allocations are not a direct role of the committee but they do look into special circumstances and proposed bills. The budget holds 'committee stage discussions' - that includes the relevant ministry, ministry of finance and other related parties (related departments, ministers, trade unions etc. for each of the ministries and their discussions are recorded on Hansards (which records the discussion in the language that was spoken in and not translated into other national languages). However there a report is not submitted. But such 'committee stage meetings' are not standard parliamentary committees. Comments: Researcher: The Constitution, Chapter XVII Finance, 150: Withdrawal of sums from Consolidated Fund indicates that any unallocated funding can be allocated by the Minister of Finance: '...no sum shall be withdrawn from the Consolidated Fund except under the authority of a warrant under the hand of the Minister in charge of the subject of Finance' Also the Ministry of Finance maintains its 'Development Activities' budget to allow for any unforeseen additional expenditure that administrative units may have during the year (Please refer section 6 (1) of the Appropriation Act). Any allocations through the Ministry of Finance can be done directly and parliament must be informed within two month of the allocation. However the budget ceilings set by the Appropriation Act (Enacted Budget) cannot be changed by the Ministry of Finance (executive). Researcher response: The Fiscal Management (Responsibility) Act No. 3 of 2003 (amended in 2013 and 2016) cited by the PR contains information on the type of budget documents the government needs to publish and fiscal and debt targets it is required to maintain. It does not indicate any procedure on fund transfers within the budget period. The relevant legislature regarding fund transfer has been quoted in the sources and comments and the score was based on these legislature.

116: Does the executive seek approval from the legislature prior to spending excess revenue (that is, amounts higher than originally anticipated) that may become available during the budget execution period, and is it legally required to do so?

- a. (100) The executive is required by law or regulation to obtain approval from the legislature prior to spending excess revenues, and it does so in practice.
- b. (67) The executive obtains approval from the legislature prior to spending excess revenue, but is not required to do so by law or regulation.
- c. (33) The executive is required by law or regulation to obtain approval from the legislature prior to spending excess revenues, but in practice the executive spends these funds before obtaining approval from the legislature.
- d. (0) There is no law or regulation requiring the executive to obtain approval from the legislature prior to spending excess revenues, and in practice the executive spends these funds before obtaining approval from the legislature.
- e. Not applicable/other (please comment).

Answer: c. (33)

Sources: The constitution gives parliament the power to authorise all revenue withdrawals- Section 148-150. Any net surplus is to be credited to the Consolidated Fund before six months after the expiry of the financial year (Appropriation Act, Section 3(1)). While the constitution does not mention specify action for excess revenue, it requires the Minister of Finance (executive) to operate within the said limits of the law when allocating from the Consolidated fund. In practice, parliamentary oversight on excess spending is weak, and at times permission for excess spending occur after funds have been allocated. 117: Does the executive seek approval from the legislature prior to reducing spending below the levels in the Enacted Budget in response to revenue shortfalls (that is, revenues lower than originally anticipated) or other reasons during the budget execution period, and is it legally required to do so?

- a. (100) The executive is required by law or regulation to obtain approval from the legislature prior to reducing spending below the enacted levels in response to revenue shortfalls or other reasons, and it does so in practice.
- b. (67) The executive obtains approval from the legislature prior to reducing spending below enacted levels, but is not required to do so by law or regulation.
- c. (33) The executive is required by law or regulation to obtain approval from the legislature prior to reducing spending below enacted levels, but in practice the executive implements these cuts before seeking approval from the legislature.
- d. (0) There is no law or regulation requiring the executive to obtain approval from the legislature prior to reducing spending below enacted levels, and in practice the executive implements these spending cuts before seeking prior approval from the legislature.
- e. Not applicable/other (please comment).

Answer: c. (33)

Sources: The Constitution and Appropriation Act does not specify a reduction in funding to administrative units. However as stated in the source in question 116, any surplus or shortfall would be channeled through the Consolidated Fund and the Minister of Finance (executive) must operate within the said limits of the law when allocating from the Consolidated fund. Comments: Researcher: Section 153 which is on the Auditor General gives circumstances under which the auditor can be removed. It states the removal by president must include an address in parliament. Section 153 (3) (e) on his removal by the President upon an address of Parliament, therefore the legislature gets involved.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the "I am not qualified to judge this indicator" option had to be selected. The appropriate answer would have been "NOT APPLICABLE", because the government did not provide any comments to any of the questions in the Open Budget Survey.

121: Who determines the budget of the Supreme Audit Institution (SAI)?

- a. (100) The SAI determines its own budget (i.e., submits it to the executive, which accepts it with little or no change, or directly to the legislature), or the budget of the SAI is determined by the legislature or judiciary (or some independent body), and the funding level is broadly consistent with the resources the SAI needs to fulfill its mandate.
- b. (67) The budget of the SAI is determined by the executive, and the funding level is broadly consistent with the resources the SAI needs to fulfill its mandate.
- c. (33) The budget of the SAI is determined by the legislature or judiciary (or some independent body), but the funding level is not consistent with the resources the SAI needs to fulfill its mandate.
- d. (0) The budget of the SAI is determined by the executive, and the funding level is not consistent with the resources the SAI needs to fulfill its mandate.
- e. Not applicable/other (please comment).

Answer: a. (100)

Sources: Interview with the deputy Auditor general on the 19th of December 2016 The interviewee was asked the exact process (how and who) of determining the budget of the Auditor General's office and if they have enough resources to conduct their audits. They were asked what they lack in terms of Human resources, money, technology etc.

Comments: Researcher: The auditor General's department determines its own budget and submits the proposal to the treasury and the funding level is broadly consistent with the resources the Auditor General needs to fulfill its mandate.

Comments: Researcher: The government conducts three levels of participation for the budget. The score is based on the first mechanism. It was scored 'c' as participation was via invitation. 1- Citizen's Engagement Programme The Ministry of Finance initiated the Citizen's Engagement Programme to obtain the input from grass root levels. This was Coordinated by the Training arm of the Ministry with the help of the academic staff of the state universities who were allocated divisional secretariat divisions and were requested to obtain the comments of the people - opinion leaders, public officials (e.g.: in health and education). The academics then submitted their report to the Ministry of Finance, Economic Policy unit for analysis and budget consideration. 2- Open call for budget proposals This is an open invitation for any interested party to submit their proposals to the budget on its revenue or expenditure proposals. the Call is advertised online and in print media. 3- Selected stakeholder meetings organised by the Ministry of Finance The Economic Policy Unit and the Trade and Investment Unit of the Ministry of Finance request the budget proposals of several key stakeholders such as the chambers and trade unions for their input. During the 2016 budget discussion, the Chambers held a meeting together to offer proposals and an additional meeting to discuss amendments to the proposals with the Finance Minister.

Comments: Researcher: As indicated in the comment of question 125 1 - Citizen's Engagement Programme was the most comprehensive information input mechanism of the government. While this covered a wide area of the country as well as individuals, it does not focus on vulnerable communities. However there are separate engagements that seek the input of such individuals: The Director stated the line ministries are responsible in ensuring the vulnerable communities are considered. However, if they have missed a potential allocation, the Department of National Budget would inquire after the lack of funding and increase it based on the requirement and need. (Example: when the Ministry of Education under-budgeted for disable learning, the Department of National Budget increased the allocation to ensure the necessary programmes can be conducted).

Comments: Researcher: As indicated in the comment of question125 1 - Citizen's Engagement Programme was the most comprehensive information input mechanism of the government. In discussion with the parties that were involved with the mechanism it was indicated that suggestions were obtained on the budget revenue and expenditure proposals, including social spending. However, the agenda of the Citizen's engagement and stakeholder meetings are not available to verify the details of the engagement. In addition, the budget call addresses all the topics except for macroeconomic issues, but leaves space for the public to include it in their submission.

Comments: Researcher: The Ministry of Finance does not currently seek input of the public on budget monitoring. However the business community can interact with the Ministry of Finance and follow up on budget allocations through the 'Ease of Doing Business' Forum. The Ease of Doing Business Forum is held to ensure the concerns of the business community is met. The meeting calls on several ministers and ministry officials of relevant administrative units such as the Ministry of Finance, Industry and Commerce, Development Strategy and International Trade, Public Enterprise Development, National Policy and Economic Affairs and the Central Bank of Sri Lanka. The forum is to discuss budget proposals and to bring up solutions to enhance trade and investment in Sri Lanka. This can be called an ad hoc forum as it was originally scheduled to be a quarterly review but the dates of the meeting vary from the said timeline.

3. Constraints
4. Intended outcomes
5. Process and timeline

- a. (100) Comprehensive information is provided in a timely manner prior to citizens engagement in both budget formulation and implementation phases.

Comments: Researcher: The Ministry of Finance only actively seeks input for the budget formulation and not during its implementation. While the government conducts three levels of participation for the budget (citizen's engagement, budget call, selected stakeholder meetings (please refer comment on question 125), the score is based on the first mechanism. 1- Citizen's Engagement Programme - this was to engage the public by providing information of the scope, purpose, and timeline. Comments: Researcher: The executive provides confirmation receipts for the proposals that were submitted, however detailed evidence of how the proposals that were submitted were used in the budget formulation was not published. However ad hoc confirmations exist: 1- During the latest budget year (FY 2017) the executive has published a list that included the list of the participants to the budget call and their selection of proposals. (further evidence is required to verify this statement). 2- During the previous budget (FY 2016), during the meetings with the business communities and the chambers, the executive has given feedback on the proposals and requested have requested the chambers to amend certain proposals to fit the EBP. As there is no concrete mechanism to provide feedback on the proposals, a score of 'd' was selected.

IBP comment: Despite repeated requests to the Government of Sri Lanka for its comments on the draft Open Budget Questionnaire results, IBP did not receive any response. The survey tool used, however, did not allow the government response to be left blank, and did not permit changes in the answer options. Therefore, the “I am not qualified to judge this indicator” option had to be selected. The appropriate answer would have been “NOT APPLICABLE”, because the government did not provide any comments to any of the questions in the Open Budget Survey.

134: Are participation mechanisms incorporated into the timetable for formulating the Executive’s Budget Proposal?

- a. (100) Yes, at least one line ministry uses open participation mechanisms through which members of the public and government officials exchange views on the budget.
- b. (67) Yes, at least one line ministry uses open participation mechanisms through which members of the public provide their inputs on the budget.
- c. (33) Yes, at least one line ministry uses participation mechanisms during the budget formulation or implementation phase, but either these mechanisms capture only some ad-hoc views, or the executive invites specific individuals or groups for budget discussions (participation is not, in practice, open to everyone).
- d. (0) The requirements for a “c” response or above are not met.

e. Not applicable (please comment).

Answer: d.

Sources: Interviews with Director of the Department of National Budget, Staff of the Economic Intelligence Unit of the Ceylon Chamber of Commerce
Comments: Researcher: Ministries are requested to formulate their budget based on zero budgeting system taking to account their stakeholders. For example, The Director at the Ministry of Finance (tasked with the Ministry of Education) stated that Ministry of Education is said to take input at the school board level - where the principals and parents of the children of the school can provide input into the activities of the school's education system. As there is no public record of the implementation of such participation, the question was given a score of 'd'.
